Buy a Square

Buy a square meter of new technically advance footing. Help us to raise the money to enhance the quality of footing you ride on everyday. GGT-Footing by Premier Equestrian is a blend of Textile and fibers which can be added to the existing sand arena. Renewing a broken down surface, while adding traction and cushioning, reducing dust and aiding in moisture retention. This same material was used at The World Dressage Masters 2011 and has been preferred in Europe for many years. In order to install and maintain the new footing, new grooming equipment will be needed. The total price for material and grooming equipment for a 20 x 60 meter arena is approximately $6000.
We are looking for donations to help complete the new footing project.
